

I am Steven Fuchs and I am running for Treasurer for the DV Band Boosters. Laura and I have lived in Ahwatukee for 14 years after spending 25 years and 18 growing up in New York City. I completed the majority of my Bachelors of Science in Management at Case Western Reserve University in Cleveland, Ohio before leaving school to form a software development company. I have spent the past 35 years in various founder, practice management and sales roles in consulting, technology reseller organizations and technology vendor organizations. Most recently, I have been in Contact Center sales for 9 years at Cisco Systems. During high school, I worked in many positions in my grandfather's textile firm learning all aspects of the business including accounting and bookkeeper functions.

Lily and Noelle are my daughters who are finishing their second year in the band and are completing their sophomore year at Desert Vista. Hannah, our oldest daughter, is a graduate of Desert Vista and a sophomore at American University in Washington, DC.

I accepted the nomination for Treasurer because I believe I have a well rounded financial and business process focus that is required to continue to offer our organization the ability to support the band programs at the level they deserve. Treasurer is an incredibly important position as we embark on another year. I know we can continue to provide the programs with the funding required for them to excel. We have a great Band Boosters organization, one which enables our programs to perform at the levels they do.

Over the past two years, I have functioned as a jack of all trades within the Band Boosters, helping out wherever asked. You might have seen me helping at the Spiritwear table at home games, helping to unload the trucks at night. I have also volunteered on the nomination committee last year and on the Bylaws and Policies and Procedures revision team this year. I have built strong relationships with many members of the Band Boosters organization and look forward to continuing to strength these over the coming years.
